EDUCATION AND QUALIFICATIONS

1. High school, 1964, Rome
2. M.D. 1971, Faculty of Medicine, University of Rome (degree mark 110 out of 110)
3. Specialization in Psychiatry, 1976, Nervous and Mental Diseases Hospital, University of Rome (specialization mark 70 out of 70)

ACADEMIC POSITIONS

Professor “by contract” (every year can be confirmed) in Psychopharmacology at the Postgraduate School in Clinical Psychology of the University of Siena since 1993 to 2009.

CLINICAL AND ADMINISTRATIVE EXPERIENCE

1. Assistant doctor for Psychiatric Hospital of Gorizia, first no restraint and open door PH. 1972.
2. Assistant doctor for Psychiatric Hospital and Mental Health Services of Arezzo, 1973 – 1978. In continuity with the Gorizia experience, psychiatric therapy was progressively transformed from the hospital to the community. There he was before manager of the

“Agitated (aggressive)” ward, transformed in a therapeutic community and then of the “Admission” ward.

3. Manager doctor of the Mental Health Service of Casentino, a valley nearby Arezzo. There he experiences for the first time the possibility of admitting psychiatric patients in the medicine ward of the general hospital, assisted by psychiatric staff. Subsequently, after the new psychiatric law, this kind of admission became normal in all the country. 1978 – 1987.
4. Director of the Mental Health Department of Casentino, composed by:
 - Community service.
 - Psychiatric service of the general hospital.
 - Sheltered home for former Arezzo psychiatric hospital of Arezzo, originated from Casentino.
 - Day care Centre for young psychotic patients. 1987 - 1994
5. Director of the mental health Department of the area 3 of the town of Firenze. 1994 – 2001.
6. Manager of the directors of the Mental Health Services (5) of the whole town of Firenze. 1996 – 2001.

PSYCHOSOCIAL ACTIVITIES

Senior expert, Caritas Italiana. Project “Mental Health in Serbia”. 2002 – 2008.

EDUCATION ACTIVITIES

Member, Scientific Committee of the Centre for Study and Research “Franco Basaglia” 2003 – 2008.

MAJOR RESEARCH INTERESTS

1. Organization of psychiatric services.
2. Funds restructuring from hospital to community psychiatric activities.
3. Patients’ rights defence.
4. Preventive psychiatry.
5. Setting of the individualized therapeutic project.

INTERNATIONAL ACADEMIC ACTIVITIES

Numerous lessons in the Universities and Hospitals from Brazil, Denmark, France, Germany, Japan, Montenegro, Serbia, Spain, Switzerland.
